

Debut of a Kankaria lake as “An International Quality Asset”

Research guide-Dr. Lalitha Kamath
Co-guide- Prof. Pranjal Dixit

Lake in terms of Utility.

Early morning exercise

Food

Entertainment for kids

Gatherings

Important heritage structure

However, it turned into a chaos over the years.

On-the Street Parking

Unorganised informal activities

Unclean ghats

Vehicular traffic and congestion

Unsafe intersections for Pedestrians.

And so……..

It was potentially turned into an international quality urban asset !

Wait…. What, How and When?

- Chief Minister’s Vision(now Prime Minister of India)
- Impressed by Sabarmati Riverfront work, the project was handed to HCPDPM directly.
- Central Idea of refurbishing entire lake vicinity.
- Broder vision to give it an ‘international touch’

Key Findings:

1. Tender for Kankaria Lakefront Development 2008.

2. Refurbishment of Kankaria Lake Ghats.

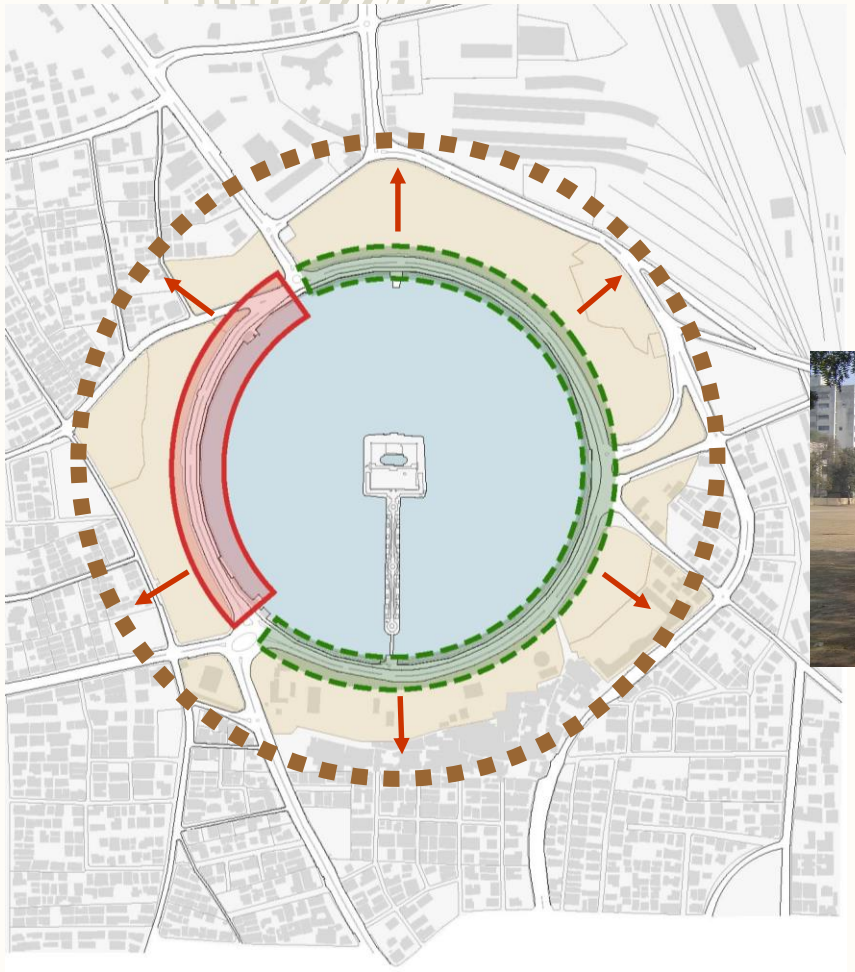

3. Cleaning of Kankaria Lake Ghats.

4. Pictures of the lake from 2006

The Priorities as per the cliental needs i.e AMC,

1. Developing alternative vehicular Ring
2. Developing access streets to Kankaria Lake area
3. Creating multiple access points to the Lakefront
4. Providing parking opportunities along the Ring
5. Creating development potential around the Ring
6. Improving existing public functions around the Lake
7. Conserving Heritage structures
8. Improving Water system of Kankaria Lake

Development of outer vehicular ring

Cutting through
Vyamshala property

Reconfiguration of
the intersection

Involve clearing
of Right of Way
through Slum

Locational mapping points	Social Engagement Activities
	Kankaria Football Ground
	Mini Golf Course
	Helium Balloon Safari Ride, Archery, Segway
	Nocturnal Zoo
	Vyayam Shala Vidhyalay and Kankaria
	Kankaria Entrance Gate 7 gates
	Kankaria Kamlanehru Zoo
	Mansuri Cemetery
	Prakruti Museum
	Balvatika & N. H. Museum
	Jaldhara Kankaria Water Park
	Adventure World
	Amrapali Funland
	Kankaria Picnic house
	Kids City
	Sai Jhulelal Open Air Theater
	Sadashiv temple
	Swimming pool
	Butterfly park and Tree-hill garden

The International Assurance

Kankaria to get gifts galore this carnival

Air-conditioned coach for toy train, floating restaurant, aerator for lake will be inaugurated alongside annual carnival today

Ahmedabad Mirror Bureau
amfeedback@timesgroup.in

Get ready for some refreshing additions to the Kankaria lakefront. On the day he inaugurates the 11th edition of the annual Kankaria Carnival on Tuesday, Chief Minister Vijay Rupani will also launch amenities for the lake which will continue after the carnival as well. These include an AC coach for toy train and floating restaurant on the lake among others. The carnival will continue till December 31.

The air-conditioned coach is being added to 'Swarnim Jayanti Express' as part of a pilot project. Explaining the need for it, Ahmedabad Municipal Commissioner Vijay Nehra said, "There are hardly any passengers during summers due to extreme heat conditions. So we thought of adding the AC coach as a pilot project. It will be at no cost to the corporation. Depending on the feasibility and success of the project, we will take further decision." It is a project based on public-private partnership and will cost Rs 70 lakh.

The ticket for the AC coach is priced at Rs 80 for those aged above 12 and Rs 40 for those below 12.

Another major addition will be the Floating Restaurant, to be introduced on a PPP model at a cost of Rs 55 lakh. The restaurant with a capacity of 40 persons will be a permanent addition.

The AC coach that will be added to Swarnim Jayanti Express

"There are hardly any passengers during summers due to extreme heat conditions. So we thought of adding the AC coach as a pilot project. It will be at no cost to the corporation

Vijay Nehra, municipal commisioner

The cost per person is Rs 300 and customers will be able to sit in the restaurant for 30 minutes. Other attractions include Jet Ski and Kayaking, besides battery-operated vehicles and golf cart.

AMC is also introducing 'Inject Air Diffusion System (Aerator) at a cost of Rs 1.14 crore. A total of 10 systems will be placed around the lake. "This will lead to an increase in the dissolved oxygen level in the Kankaria lake. It will ensure fish and other aquatic species in the lake get sufficient amount of oxygen and also improve the quality of water," said Nehra.

'Bicycle on rent' will also be launched on a pilot basis for six months and a total of 150 e-Swachh bins will be placed in the premises. These bins have an attached sensor which will notify the agency's portal when the bin is full. This in turn will facilitate regular emptying of the bins.

Among the programmes that have been planned for the carnival are cultural, musical and dance programmes, horse and dog shows, Gujarati-Hindi playback singing programmes, rock bands and laser show.

Before the development in 2007 v/s Grandeur development in 2008

Disposal of garbage

Varied utility from bathing to performing rituals.

Free and easy access to the ghats

Highly regulated against disposal

Water activities and commercialisation

Curtailed access

BALVATIKA

Food stalls before and after 2008

Legal Stalls on the periphery

Sitting arrangement

Healthy competitive market

Legal stalls within the periphery

Disciplined sitting arrangements

Perfect competition

Slums before and after the re-location

THE GRAND CARNIVAL

THANKYOU
